## Unemployment Insurance Becomes Law July 1st.

Unemployment Insurance becomes an actuality in Canada from July first. For the workers who are subject to periods of unemployment through no fault of their own it will mean the difference between being on relief or charity and the self-respect of having provided for their own welfare through a plan of insurance savings.

The plan is one of co-operation between the employer, the employee, and the Government. Each makes a contribution based on the weekly wages earned by the employee. To the amount contributed by the employer and the amount deducted from the employee's wages, the Government adds one fifth of the total, and pays for the cost of operation. These contributions are similar to insurance premiums, and accumulate against the day when the worker, either male or female, becomes unemployed. Then, in a very short time the worker begins to receive weekly cheques which will continue for a limited period of unemployment.

This, briefly, is the Unemployment Insurance Plan which becomes a law of Canada, just as it has been a law in Great Britain for more than thirty years. With the experience of the British Act as well as the examples of other countries to draw upon the Unemployment Insurance Commission has created a plan which should operate with the least inconvenience to the employer and to the greatest possible benefit to the workers.

A unique and simple system of making contributions to the Fund through the Employer purchasing special stamps from the Post Office and affixing them each week in a book designed for the purpose, is the record of each worker's contributions, as well as the employer's. In this way every worker can find out exactly at any time where he or she stands in respect to Unemployment Insurance.

There are some classes of workers who are not eligible for Unemployment Insurance, and there are certain conditions which affect all workers. Both employers and employees should familiarize themselves with the terms of the plan which will be made available by the Postmaster in the locality you live.

A part of the plan is the opening of Employment Offices throughout Canada where workers may seek jobs and employers can seek workers. These offices will be opened as rapidly as possible to facilitate the most effective utilization of Canada's labour force during the war and in preparation for the return of workers to peacetime employment after war work has ceased.

### SHOWER FOR MISS

#### BETH HARKER

Miss Beth Harker, a bride to be, was honored at a shower in the 2nd Ward Hall Monday evening last. Despite the wet weather and bad roads, a nice crowd of ladies and girl friends assembled to congratulate the bride and to honor with a remembrance. A lovely lot of gifts were unwrapped at the conclusion of the program which was rendered.

Beth lived here for a number of years until she moved back to Cardston with Mr. and Mrs. Arthur Dahl, and with her many friends we join in congratulations and best wishes on her approaching marriage and wish her much joy and happiness.

### GOOD MEETING HELD

J. C. Landryou, Calgary, and former M.L.A., addressed a crowd of upwards of thirty people at the Town Hall on Tuesday night, and many of them stated it was one of the best meetings they had ever attended where they listened to an explanation of the B.N.A. Act and Bank Act of the Dominion and how they operate.

Mr. Landryou is known as a clear, and forceful speaker and his explanation of many of the technical points of these acts, not fully understood by the average citizen, and his clear answers to the questions put to him by the meeting, showed his understanding of his subject. The committee is expecting to have him back again later on for another meeting.

### RED CROSS STILL

#### GOING STRONG

The local Red Cross organization, while not making the news every day is still very active and the knitting and sewing rooms are busy all the time with completed articles being taken in and more supplies being given out.

To keep the workers going strong, some new appointments have been made in the personnel of the organization. This will not only enliven the social side of the work, but will also increase the output of the organization. Miss Iris Jones will have charge of the social activities of the Red Cross group, and Mrs. Dot Witbeck has been placed in charge of the collecting of materials and the making of quilts for the organization.

We hope to have another report very soon of the recent accomplishments of the organization.

### WHEAT ACREAGE AWAY DOWN

Secretary O. H. Snow is just completing the compiling of acreage reductions throughout the Sugar City M. D. No. 37, and the statistics will show quite a reduction in wheat plantings for the present year.

Total wheat acreage in 1940 throughout the district was 81,177. Total acreage to be planted this year according to present reports will be 60,253, making a decrease of 20,924 acres or about 25 per cent. What portion of the 20,924 acres taken out of wheat will be left in fallow, and what portion will be seeded to coarse grains and grasses has not been determined yet.

Three babies were blessed in the Sacrament meeting Sunday in the 2nd Ward, being the babies of Mr. and Mrs. Carl Allred, Mr. and Mrs. Ivan Wilde and Mr. and Mrs. Delbert Oler.

Harold Stevens who has been ill for so many months past, has started work again, and has taken over the Fuller agency for the territory of Alberta including Raymond and these southern towns. Watch for more detailed announcement.

A thunder shower with heavy peals of thunder, accompanied by rain came Wednesday afternoon, after the forenoon had been overcast but without rain. Gardens and beet fields need a few days dry weather, now to permit of the weeds being taken care of.

## Victory Loan Way Over Top

### LEADS ALL CANADA

Even before the appointed hour of the opening of the books for Canada's Victory Loan last Monday morning, Raymond and district was over the top in fine style and hardly started in the complete canvas that was planned. Included in the territory were Welling, White School, Wilson Siding, East Lethbridge and Stirling. As reported last week, with Jas. H. Walker as Unit Organizer and H. S. Allen as local Chairman and key men in each of the other districts, the drive was completely organized ten days ago.

During Saturday and Sunday, canvassers had made contacts and received subscriptions to the loan, so that the actual amount of \$33,000.00 and an additional \$10,000.00 on a special names list, which included the Knight Sugar Co., The Raymond Mercantile Co. Ltd., and the Canadian Sugar Factories, Ltd., the total quota was \$43,000.00. As soon as the bank opened Monday morning so that the subscriptions could be confirmed, headquarters at Calgary were notified of the fact, and Raymond was the first community in Canada to turn in an official and confirmed report of scaling the top in such a magnificent manner.

The Canadian Sugar Factories, Ltd., purchased \$1,000,000.00 worth of bonds, half of which was credited to the Raymond district. Another citizen made his purchase, talked for a few minutes respecting the loan and the vital need for it, asked to see his check again, and doubled the amount of his application. Such was the reception the canvassers met, and when the report was made and confirmed, the committee had applications for subscriptions of bonds to the value of \$557,100.00.

### MONDAY WAS LOAN DAY

The loan was featured all day Monday in Raymond. At the Rotary Luncheon at noon, Chairman J. H. Walker, local M.L.A., spoke to the Rotarians, and reported on what had been accomplished, expressing the appreciation of the committee for the work of the Committee and the loyal support of the citizens of the district, and spoke of the need for the money, expressing sentiments repeated in the afternoon public gathering, and which will be reported there.

After rain and almost sunless skies for three days, the clouds parted company Monday morning and the parade and program which had been scheduled for 2 p.m. was set back to 3 p.m. to allow the streets to dry a little.

Under the direction of Lee Brewerton, publicity chairman of the committee, the parade was organized on the street, going past the Opera House and moved off at 3:30 p.m. with the High School Band in lead, followed by the local section of the 6th Field Park Company, and the children of both Public and High School, starting with Grade 1 and finishing with the High School pupils, the latter carrying banners made in the school, interesting, original and clever. The parade marched to the Town Hall corner and lined both streets and almost stopped traffic for the program. There were more than a thousand people

present.

The program opened with a band program. Considering the fact that the members have had less than two months to practice on their instruments they did exceptionally well and surprised everyone by the fine showing they made. The entire congregation joined in the singing of O Canada.

Lee Brewerton on behalf of the Committee thanked all who had assembled for the program, and all who had so loyally supported the loan and introduced Jas. H. Walker, M.L.A. as the speaker of the afternoon.

Mr. Walker spoke on the fine success of the drive, and praised the canvassers for their efforts despite the storm in putting the drive over in the fine manner they had. He explained the nature of the bonds, the fact that they could be sold any time, if it became necessary, for practically their face value, as arrangements had been made with the Bank of Canada to keep the bond issue at a parity of around 98 or 99 per cent. He said that conditions might arise where it would be essential to cash in on the bonds, or to use them as security for advances, and stated that all these matters had been arranged and provided for beforehand and that there. He stated that the books would be kept open until June 30th at his office, and that any one who could finance a bond should buy one. The fact that the loan had gone over the top was not the end. The work of the Committee was not done until every Canadian who could, had purchased a bond.

Speaking of the need for the money he pointed to the fact that every engagement lost to date, had been lost because of lack of equipment on the part of the Allies. The need for planes, tanks, ammunition, and the other materials of war was very great. If our freedom and democracy were to be maintained, it could only be done by subscribing gladly and heavily to these loans, to put money into the hands of the Government for the prosecution of the war. Any person who would not support the Government to the limit with the money they had in order to protect their rights as a free people were not worthy of the name of a Canadian and Britisher.

A couple more band selections, and the singing of the National Anthem brought the program to a close.

To complete the day, a large beacon fire in the centre of the Town at the Town Hall corner was lighted at 9:30 p.m. under the direction of the Boy Scout Council, and for an hour the flare from the fire lighted up the skies. This was done clear across the Dominion. Such was War Loan day in Raymond.

The price of bacon went up 75c, a hundredweight at the seaboard over the week-end and will make hogs locally worth about \$11 to \$12 for a B1 grade.

The Municipal grade, was busy Thursday and Friday on the Welling road putting it in shape for the summer traffic. A start was made last week but the incessant rains made it impossible to do any more than start at the job. It is hoped to finish it up this week.

### SPECIAL AARONIC PRIESTHOOD MEETING

A special meeting of all Aaronic Priesthood Supervisors, teachers, and members of Aaronic Priesthood committees was held in the Stake House Wednesday evening with a very representative crowd of boys and boy leaders from the various wards of the Stake.

Speakers at the meeting were Bishop Jos. L. Wirthlin of the Presiding Bishopric, present from Salt Lake City on Stake business, Stake Pres. T. Geo. Wood of the Taylor Stake, and Elder Lee A. Palmer, of the Aaronic Priesthood Committee of the Church who outlined the new plan for Aaronic Priesthood work throughout the Church and led in the discussion following. The meeting lasted until almost 11 p.m. and the ones who attended received a great amount of valuable information to aid them in their work for the future.

### NEWS NOTES

Major Jenkins, recruiting officer, was here Wednesday and interviewed a number of young men interested in enlisting in the military forces.

Mr. and Mrs. L. D. King and party left early Tuesday morning to attend the M.L.A. Convention of the Church being held this week-end in Salt Lake City, Utah.

Mesdames A. W. Kirkham, C. W. Lamb, J. E. Fisher and E. H. Secville were in Calgary last week and attended the Provincial Convention of the Women's Institute representing Raymond at the meetings.

The regular meeting of the Sugar City M. D. was held Tuesday afternoon and routine business taken care of. There was quite a discussion of the Welling-Craddock road and a report on this particular piece of the meeting will be given next week.

Tree caterpillars are certainly having an inning this season. Some trees are stripped as bare of leaves by these worms as the middle of the winter. It begins to look as if some joint action may have to be taken to clean up on these pests or our beautiful shade trees will look like the burned over forests.

The Western Air Lines plane from Great Falls to Lethbridge passes right over the town every day about 1:30 and returns one hour later. In view of the training school at Lethbridge and this new service started on emergency landing field at least should be located here somewhere.

Mr. and Mrs. A. J. Garner Mr. and Mrs. Harold Garner Mr. and Mrs. Wm. Anderson and Alfred Garner father of deceased were in the Cardston district on Wednesday, where they went to attend the funeral services of Arthur's sister, Mrs. Alex Leishman who died in the Cardston Hospital over the week-end. Her son, who was seriously injured in a highway accident coming from Waterton Park to Hill Spring a couple of weeks ago is lying in the Cardston Hospital in a very serious condition and doctors hold out very little hope for his recovery. Our sympathies to members of the Garner family living here in Raymond.

Next Sunday is Victory Loan Sunday, and speakers will take part in all services to speak on the subject of the Loan and its uses. Patriotic songs and music will also be featured. Following are the speakers slated for the various points:

Raymond 1st Ward—Jas. H. Walker, M.L.A.

Raymond 2nd Ward—H. S. Allen, Local Chairman.

Welling Ward—J. W. Evans Vice-Chairman.

United Church—Rulon Dahl.

Stirling is also featuring the Loan and local speakers there will take part.

### RAIN, RAIN, GO AWAY, COME AGAIN SOME OTHER DAY

The above might be the thoughts of many, and is no doubt appropriate. During the past fifteen or twenty days, we have had just about all the moisture the ground can absorb. When the water ceased to fall Monday morning, gardens were almost water logged, as well as fields, and the water was just running off the land into the low places. Roads were waterlogged, even paths were soaked and rubber boots were quite in style.

No one is complaining. The storm was a lovely one and came just at the right time. Fields and gardens were dry and crops were not doing much. Irrigating was being done, but it was difficult to get and keep a water turn, and with the small amount of snow in the mountains and the prospect of a dry summer, everyone was trying to use all the water he could get while there was still water to be used. The storm has changed the picture for the present at least. Since the rains set in, locally we have had about two and three-quarters inches. Precipitation was far heavier here and at Welling, and from reports in Magrath and west, than it was in Lethbridge and to the east. Roads in these other districts were dry and passable all the time. Traffic never ceased on our roads, but even the gravelled roads were slippery and dangerous, and a few cars even slid off these.

It is not likely that any crops suffered from the rain. With warm, dry weather now, everything will make wonderful growth and should make a bumper crop. Beet thinning has been delayed and there will be a grand rush when the land dries out to get the beets thinned before they get too large. Grain and hay crops and pasture lands will benefit very materially from the copious rains.

According to information recently received by the family, Franklin Smith, who is employed in government work in Montreal, will be married on June 20th. Our congratulations and best wishes to Franklin and the future Mrs. Smith.

Mr. Plewe, one of the architects from the Church building Committee was here with Bishop Wirthlin and was visiting some of the Ward houses with a view to some further improvements in some of them.

The winter's collection of cinders could be used to good advantage now on streets to fill up a few of the holes that the spring storms have caused. Householders could help a lot by a judicious use of the ash piles.

### A MATTER OF INSURANCE

Picture the plight of a chairman of the Board of Directors who reports at the annual meeting of his company that his colleagues had taken out ten thousand dollars fire insurance policy to protect plant, buildings and equipment valued at two hundred thousand dollars.

At home that evening he would likely explain that he had had a very hard day and that he was now ex-chairman of the board.

"Ah," you say, "that can't happen to any Canadian business in this modern day!"

But don't reach such a sudden

conclusion too hurriedly. Have you stopped to consider that the Dominion of Canada — our ace business institution — may be under-insured?

Europe is in flames. And that huge conflagration will surely catch Canada if the blaze is not checked on the other side. That is irrefutable.

In the light of this understanding, with the full knowledge that unless fiery Nazism is brought under control at its source, Canada stands to lose everything, what action should Canadians take from the viewpoint of good business? Canada's developed resources are measured by billions of dollars. Her undeveloped resources are so vast that they cannot be earmarked by the dollar sign. Our other assets of freedom and happiness are almost as precious as heaven itself seems to us.

The only insurance available to us is ever increasing production of material for the fire fighters overseas. That production hinges on the assets of Canadians in terms of dollars.

The present War Loan is an insurance premium small enough

in relation to the size of the policy we should take out for the protection of our very existence. The length of time the storm has been to clear up makes us all hopeful that a couple of weeks of good weather will follow now for beer thinning.

### THE PRESS AND THE ADVERTISER

Editorial No. 5

The relationship between the newspaper and its advertisers is as important to the newspaper reader as it is to the publisher. Newspapers are sometimes unfairly accused of being subservient to the advertisers who provide the revenue upon which the newspaper exists. This erroneous impression has been gathered because the average person knows that the newspaper must have advertising to exist, and therefore if he happens to be of a suspicious turn of mind, he concludes that the advertiser must set the policy of the newspaper.

Not only is such a suggestion untrue, but it is unfair both to

the newspaper and to the advertiser. Practically every publisher will tell you that few merchants ever attempt to dictate the policy of the newspaper. They may express opposition to some stand the newspaper has taken, but few would go so far as to threaten the newspaper with withdrawal of business, if that policy was not changed to conform with the wishes of the advertiser. The successful merchant is usually successful because he is an honourable man, and few would stoop to the level of threatening a newspaper because its publisher had different ideas on a given question than the advertiser.

The relationship between the advertiser and the newspaper is similar to that which exists between a merchant and his customer, only in this case the publisher is the merchant and the advertiser the customer. The advertiser purchases space in the newspaper because he has a story to tell the readers of the paper. He uses advertising as a legitimate means of drawing custom to his store. If the newspaper continues to provide the service required and adequate

returns for the investment, the merchant continues to advertise. When he feels he is not getting that value he ceases to advertise. That too is the relationship which exists between any other merchant and his customer. So long as the customer feels he is getting good value and service from the store he continues to be a customer. When value and service cease he takes his trade elsewhere.

That, very simply, is the relationship between the publisher and the advertiser. Any suggestion that the policy of the newspaper is dictated by the ad-

vertiser is a slander on both newspaper and merchant. Best proof that the advertisers do not dictate policy is the fact that it would be almost impossible to find a group of merchants in any community whose ideas could be so identical that they could formulate the policy of any newspaper.

Several of them are planning on transferring to some unit for immediate active service, and may be leaving within the next ten days.

## THE WORLD OF WHEAT

(By H. G. L. Strange)  
Director, Research Department,  
Searle Grain Co., Ltd.

The country of Iraq, now so much in the public eye, has from time to time during the past 6,000 years been great news.

This land once constituted the whole of the known world. It was the site of the Flood, the Garden of Eden, of the ancient cities of Ur, Babylon and Nineveh; it was the home of Abraham and of the great conqueror Nebuchadnezzar (whose career was not unlike Hitler's) and whose downfall was predicted accurately by the Biblical prophets Jeremiah, Ezekiel and Daniel.

For thousands of years this ancient country was the scene of invasions and battles by the Chaldeans, the Egyptians, the Babylonians, the Jews, the Medes, the Persians and the Assyrians; these nations taking, holding and losing one after the other that historic stretch of country between the Tigris and Euphrates Rivers, credited with being then, as it still is today, the most fertile land in the world.

On this soil wheat is said to have been first grown, and it was mainly for WHEAT that the ancient wars and invasions were made, but today it is for the magic OIL that the struggle is taking place, and on identical, the same ground that has seen so many great conquerors of the past rise supreme, reign for a brief period, only each in his turn to fall.

Following factors have tended to raise prices: Proposed legislation calls for higher partly loans for U.S. farmers—Reports from Balkans continue to indicate late seeding—Winnipeg Free Press estimates prairie wheat acreage reduced 5.5 million acres from 1940—General Motors-Cornell Index of world wholesale prices has advanced 4 p.c. during April.

Following factors have tended to lower prices: U.S. winter wheat crops continue to make good progress—U.S. corn stocks on April 1st totalled 1,425 million bushels, largest on record—Private estimates indicate U.S. winter wheat crop 640 million bushels May 1st, up 24 million bushels during month.

North-West Line Elevators Association

## Line Elevators' Exhibit

The North-West Line Elevators Association exhibit, now regarded as an institution at "B" class fairs, will be covering the circuit again this season. "A" class exhibitions at Brandon, Calgary, and possibly Regina, will also be included.

The central feature of this year's display will illustrate, by mechanical devices, the problem of controlling wind and water erosion of soil. Artificial dust and rain storms will illustrate the damage to soils from these causes. Adjacent to the damaged fields will be contrasting scenes showing the results obtained when control methods are applied. This portion of the exhibit will occupy the entire back section. On one end will be displays featuring production factors to include information on weeds, insects, plant diseases, and fertilizers. The other end will contain exhibits illustrating the production of grass and legume crops, the problem of grain miles in farm granaries, and the grading of grain.

Talking moving pictures will be shown in the exhibit as an added attraction.

This will be the fourth year in succession for The North-West Line Elevators Association exhibit to be shown at "B" class exhibitions. The purpose of the exhibit this year is identical with that of former years. That is, to present something which it is hoped will be both informative and entertaining to farmers and their families spending a holiday at the fair. You are cordially invited to visit our exhibit.

## MORALE IN THE SWISS ARMY

It is an almost unbelievable thing that Switzerland should still be an independent country. Several times a foreign invasion seemed inevitable, but every time the disaster was avoided at the last moment. From the beginning of the war, when we first mobilized our army, up to this moment, there has been an increasing consciousness in people, that the things which mean most to us must be brought to new life in the heart of every

man and woman.

An order of the day issued by the Commander-in-Chief of our arm ysays: "The new methods of war will not find us unprepared. We have taken our measures against them. But our moral preparedness must still improve a great deal: the missing respect towards women, the abuse of alcohol, the lack of self-mastery of every kind are unworthy of the Swiss uniform. The resistance of a troop whose members cannot discipline themselves is already weakened. Such a troop is in danger to succumb to the war of nerves.

## NOW, THAT MAKES SENSE

A sensible girl is not so sensible as she looks, because a sensible girl has more sense than to look sensible.

Toronto—As far as T.C.A. is concerned summer arrived May 1st come sun, snow or storm. Instructions are out to pilots and stewardesses that light grey summer uniforms are to be worn after that date.

"But the spiritual preparedness is to be valued higher still than the material and the moral one. Our forefathers knew this, they who bent their knees before the Almighty each time they entered a battle. The consciousness of God's presence must be alive in every heart, and the soldier's prayers must unite with those of his wife, his parents, his children. The spirit of cheerfulness, of mutual help, of confidence and sacrifice must

also be trained day by day. In a time when we may be waked up every hour by the thunder of bombs, the sense of unity is a national necessity."

The challenge of this order brought many and varied results; in a hospital much stolen material was brought back and paid for since the new spirit of honesty entered it. When one company came to a village, a peasant had to supply the straw for their quarters. The straw sacks being very thin, there was little sleep the first night. The soldiers cursed the peasant. The next morning the officer went to talk to him. Conscious of his slackness, seeing the officer arrive, the peasant said: "Well, I suppose it's for the straw you come?" The officer, to his surprise replied: "I come to ask you how many men I shall send you to give you a hand in your work." With the help of the soldiers, much work was done on the farm; and from that day on, real co-operation between civilians and soldiers grew.

Extract from the letter of a Swiss soldier.

## British Study Anti-Invasion Tactics

Troops from Australia, Canada and New Zealand, together with British officers and N.C.O.'s are studying anti-invasion tactics at a Military Science Centre in England. The course includes handling all types of armoured units over difficult terrain. Learning to dispense with bridges, a lorry towing a gun and lumber across a river during this training.

# The UNEMPLOYMENT INSURANCE PLAN

## To the Employer...

Contributions to the Unemployment Insurance Fund become payable as from July 1st, 1941.

Contributions are made by the employer and the employee, and are paid by the purchase of Unemployment Insurance stamps by the employer from the Post Offices.

The employee's contributions are deducted from his wages by the employer.

Stamps will be affixed to a special book, called the Insurance Book, by the employer. The book is the employee's record of contributions, and when he becomes unemployed it forms the record from which insurance benefits may be paid. Full details will be sent to you when you have returned the postcard attached to a form which is now in the mails.

The plan of procedure has been adopted after consultation with employer and employee associations and is one which has been based upon thirty years' experience in Great Britain.

The Dominion Government adds 20% to the combined employee-employer contributions, and in addition, pays the administration costs which include the operation of a National Employment Service for the convenience of employers and employees.

Contributions are payable by all persons while in employment and by their employers, with the exceptions listed in the panel below.

The first duty of every employer will be to REGISTER WITH THE COMMISSION by completing the postcard attached to a form which is now in the mails, and obtaining and issuing insurance books for all his employees. If there is doubt as to whether your employees, or any of them, are insurable, ask for instructions when you return the postal card. If you do not receive a form through the mail go to the nearest Post Office and ask for one. All employers must complete registration prior to June 14th, 1941.

The Commission feels that it can be assured of the full cooperation of all employers. Nevertheless, attention is drawn to the fact that registration is compulsory and any failure to register is an infraction of the law and is subject to penalties.

### Riders and Hikers Plan Mountain Outings

Their backs turned to a world gone mad, the Sky-Line Trail Hikers and the Trail Riders of the Canadian Rockies will this summer set their faces toward the clean, snow-covered peaks of the Canadian Rockies where the eagle and the mountain goat rule supreme. Theirs, for a spell, will be the simple pleasures of the trail, the fine companionship of a campfire, the adventure of new trails, the common thrill of discovering Nature in new moods.

Two splendid outings have been planned for this summer for these two democratic organizations. The outings are paced to accommodate young and old, stout and lean. The man-made entertainment is provided by the riders and hikers themselves, artists,

writers, stenographers, school teachers, parents, businessmen, lecturers, doctors, salesgirls and others who love the open although their daily occupations confine them to the city.

The Trail Riders leave Banff first on a most interesting trip, following a new trail to Mount Assiniboine, the "Matterhorn of the Canadian Rockies." They will ride for four days and spend one other in camp. Their outing is from July 25 to 29. The Sky-Line Trail Hikers have chosen a permanent camp at Proulx Meadow in Kootenay Park and will spend four days, August 1 to 4, exploring a district which is of great charm and variety. Both organizations provide time for fishing, for the study of the flowers and wild

animals of the district, for leisurely enjoyment of the grandeur of the mountains. Camera fans will find these low-rate outings particularly thrilling because of the variety of picture material. The fisherman will discover near-virgin lakes teeming with fighting mountain trout. The out-door lover will discover an entirely new world and new ways of enjoying it.

Applications can be sent to the secretary-treasurer, J. Murray Gibbon, noted Montreal author, whose office is in Windsor Station, Montreal; or to L. S. Crosby, or Dan McCowan, Banff, the western secretaries. The Banff Springs Hotel is headquarters for both organizations immediately preceding the outings.

### WHY LONDONERS CAN "TAKE IT"

There is a tiny grocer's shop in the Portway, West Ham, London, which Jim and Alice own, and where they deal out morale with margarine, and cheerfulness with all their rationed goods. Ever since the raids began "Osborne's, Portway" has been a centre of confidence and strength for its customers and neighbors.

Just before Christmas, Jim's shop was no more—a bomb destroyed the row in which it stands. Twenty-four hours later with the willing help of customers and fellow-tradesmen, Jim was again in business only twenty houses down the street. On Christmas Day he wrote: "The moment the house collapsed, the essence of Moral Re-Armament came out. Team-work, courage, calm and collective action proved their value. The butcher, the corn-handler and the paperman came over on the morning of Christmas Eve and asked me if there was anything they could do to get my shop going before they settled down to their own business. Then customers came in and almost begged us not to leave the district, and offered their help if we needed it. Everyone was good and kind."

"You know," says Jim, "I reckon a bit more of this MRA spirit could help us a lot in this war. Think what it's done for a couple of social problems like me and my wife used to be! Why, before we caught this spirit our shop was a failure, and our home life too. My wife was a proper bag of nerves, couldn't eve nress the road alone. I was over-worked and fed-up. We couldn't work together." He turns to a customer and you hear Alice telling a customer that, yes, thanks, she's quite all right. Not a bit the worse for the bombing.

Jim comes back and says: "We

## THE QUEEN

(By Edna Jaques)

I'm glad she wears no uniform,  
This smiling Queen of ours,  
I'm glad she wears a pretty gown,  
With pearls and lace and flowers.

I'm glad she doesn't sob and weep,  
Or look sad and forlorn,  
But keeps her smile (God bless her face)  
As radiant as the morn.

And when they bombed old Buckingham,  
Her very room (no less)  
She went to church as large as life,  
And wore her gayest dress.

And in the air, raid shelter once  
Deep down below the ground  
She stayed and had a cup of tea,  
While bombs were dropping 'round.

No truer Queen e'er graced a throne,  
Than this great one of ours,  
Who faces death from day to day,  
With pearls and lace and flowers.

made God boss of our shop and head of our home. He told us step-by-step how to put 'em right. I apologized to my wife, and she did to me. It was like our honeymoon at Southend! As for the shop, well, look for yourself. We work together now."

Civic authorities have caught the spirit of this East London revolution. Beginning in East London, borough leaders all over the country have called their citizens to work for Moral Re-Armament.

In East London itself, the same spirit has spread from borough to borough. Daily more ordinary working men and women enlist in the battle against selfishness and fear, to build up the morale of their country.

## ROYAL CANADIAN AIR FORCE

Facilities for overcoming educational barriers to many keen young Canadians, eager to enlist in the Royal Canadian Air Force for training as pilot, observer, or wireless operator (air gunner), are announced at Headquarters of No. 4 Training Command, Regina, Sask.

The Canadian Legion Educational Services are prepared to provide courses of study for pre-enlistment education of the eager youth of the prairies by the organization of classes, preferably night classes, in the relatively larger centres of population.

Through no fault of their own a considerable number of young men have not been able to complete their education. Their eagerness for service in the air is common knowledge and it is expected that the valuable work undertaken by the Canadian

Legion Educational Services will lead the way to the attainment of the goal for which so many are striving.

Heretofore such educational service has been given through the medium of correspondence courses. The new method of personal instruction is expected to attract much wider interest and more rapid progress.

Much disappointment among young men has been observed in the past because they could qualify in all respects other than educational. For the information of those interested, the following qualification standards are announced:

1. To be enlisted, candidates must have attained the age of eighteen.

2. Have successfully completed the first year at High School.

3. Be physically fit for flying duties in the R.C.A.F. (all have to pass a medical examination prior to being accepted for the course.)

Be suitable in other respects. An early response to the wor-

thy effort of the Canadian Legion is anticipated. Applicants should communicate as quickly as possible to the R.C.A.F. Recruiting Centre located nearest to their place of residence. In No. 4, Training Command these are located at the following addresses:

1206 First Street East, Calgary Alberta.  
Provincial Building, Edmonton Alta.  
Regina Trading Co. Bldg., Regina Sask.

Speakers at the 2nd Ward Conjoint meeting Sunday evening were J. H. Walker, M.L.A., and I. Hironaka, who recently returned from two years residence in Japan. A nice musical program was also given. The storm kept many away from the meeting.

According to a report from J. W. Beaton, Senior Secretary for the Canadian Y.M.C.A. War Services.

These services were rendered in 356 centres which includes the British Isles, Iceland, Newfoundland and Canada. The Y.M.C.A. Centres range from a hurriedly prepared hut or community centre under the oaks of old England to lonely outposts on the Pacific Coast of Canada.

While the Physical, Social and Recreational Activities predominate—the Educational, Religious and Personal needs of the men are not overlooked. These morale building activities which have always been recognized as a very important part in the life of a soldier, sailor or airman, are very much appreciated by the authorities in charge of the various units and divisions and are made possible through the generous cooperation of the Canadian Public and the thousands of volunteer men and women that assist our trained leaders in this great enterprise.

**Be a Man  
Among Men!**

You'll feel like a million dollars the minute you step out in  
that fine new uniform now ready for you. You'll be a man  
among men, a vital cog in Canada's great mobile war machine.  
You are needed to handle guns, tanks, armoured cars and  
other motorized equipment. Canada is waiting for YOU to  
spark them to victory. Canada wants ACTION. You want  
ACTION. This is your chance to get it.

The Canadian Active Army requires men for Artillery,  
Engineers, Signals, Armoured Cars, Tanks, Infantry, Trans-  
port and Supply, Medical and Ordnance and other branches  
of the Service. The Army is prepared to teach many trades  
and to train you to efficiently handle Canada's weapons of war.

Go to your nearest District Recruiting Office. Find out about  
these Units; how they work, what they do. See just where  
you'll fit in. See where any particular skill you possess can  
best be utilized. Then join up for ACTION!
